New Transit Multi-Layer Film

Glass Shield Multi-Layer is a new approach to an old concept. Having a stack of sacrificial films that offer a onetime install, but provide quick and easy removal of multiple sheets when vandalized has been around for many years. Graffiti Shield has integrated "Craft Manufacturing" into the equation to make a Multi-Layer film completely innovative. Our most popular stack of films are traditionally 4 layers of 4mil clear removable polyester. However, if the need was to have less or more layers, thinner or thicker films, our approach is completely customizable.

- All of our films are designed with pliable polyesters vs. rigid opponents that make installation substantially easier.
- These polyesters respond exceptionally well when cutting with a Co2 laser for an OEM factory finished edge.
- We only source premium optical grade polyesters derived from the window film industry as opposed to other options that have a granular distorted appearance when viewing at an angle when compared to ours.
- Customizable approach for specific needs driven by our Craft Manufacturing ability. This not only includes glass, but also polycarbonate surfaces.
- Innovative and revolutionary "Peel Point System" that integrates a visual inventory of remaining stacked films.

Protect your property from

- Acid etching
- Sharp object etching
- Wear and tear
- Hard water
- Construction damage
- Common vandalism

- Remove vandalism in seconds, one layer at a time
- Vandal resistant "Peel Point System"
- Visual inventory indicators on stack of film
- As each layer is removed, only the correlating remaining numbers will be left on the stack "*Example: when the 4th layer is removed only the indicators 3-2-1 will remain next to the only three circular peel points.*"
- Single installation of multiple sheets
- Perfect for transit stations, bus and LRV train windows, windscreens, mirrors, storefronts, signs, and more
- We supply CAD design and OEM drawings that give you peace of mind that your patterns are designed to your expectations the first time
- Fast lead time
- 1 year limited warranty

New Peel Point System
