GS Multi-Layer Film Removal

Step 1: Use GST-0026 Film Pick to get underneath film notch

Step 2:
Lift top film layer and pull

Step 3: Continue to pull film layer

Step 4:
Use both hands to pull layer away from surface

Step 5: Pull entire layer off surface, revealing a clean surface underneath

Once you pull off layers 4, 3, and 2, you'll be left with layer #1, which is the last layer. It is now time to place another order.
